

Mission statement: Making students more involved, independent and responsible.

POV: Freshman 1st graders looking for older students to introduce us to the school and organise fun events and offer learning support. I would like them to be trustworthy and helpful, and also just a buddy. Someone who's involved in the school life and subjects. Who wants to be my buddy?

Prototype: BUDDY SYSTEM

The buddy system helps new students transition into school life and give older children the opportunity to be responsible and independent. There are many roles in this system. You'll find the explanation below:

MENTOR: I am responsible for training the buddy and giving him feedback and supporting the buddy in his/her role.

BUDDY: I am the buddy, I act as a friend and confidant to my students. I inform the student of opportunities in the school and integrate them into school life. I help with homework and organize social activities.

BUDDY'S PARENTS: I support the buddy in his role, I also help the students parents with questions about the school.

STUDENTS PARENTS: I want to learn more about the school and help my child's transition.

STUDENT: I am the new kid in school and I'm feeling nervous. I talk to my buddy if I need any help.
